

MoU - Memorly Technologies x IEEE SB DAIICT

For Hackathon '24

Deliverables offered to **Memorly Technologies**:

- Memorly Technologies can provide **the problem statements or tracks**, which are concise descriptions of issues that help participants better understand the problems and develop effective solutions for the hackathon event according to their specifications.
- Memorly Technologies will be granted a **15-minute session to promote their company and services**.
- Executives from Memorly Technologies will also be invited to **join the jury panel for the final presentations**.
- Memorly Technologies will have the opportunity to **offer internships or recruitment opportunities to the shortlisted candidates** from the hackathon.
- **A promotional video of Memorly Technologies** (up to 60 seconds in duration) will be played during the **Opening Ceremony, breaks, and Closing Ceremony** of the Hackathon by IEEE SB DA-IICT.
- IEEE SB DA-IICT will send **emails to all participants** about AI and the services of Memorly Technologies.
- IEEE SB DA-IICT will distribute any **brochures or informational materials** provided by Memorly Technologies to all workshop participants.
- Memorly Technologies can send their executives as **mentors for the hackathon**.

Deliverables offered by **Memorly Technologies**:

- In-cash sponsorship worth **Rs. 20,000**.
- Memorly Technologies will provide the **confirmation regarding the problem statements and availability of Jury and Mentors** for the Hackathon by 15th September 2024.
